Education

Institute of Engineering and Management, Kolkata

Bachelor of Engineering in Electronics and Communication; CGPA: 9.25

Sep 2021 – May 2025

West Bengal, India

Behala Aryya Vidyamandir, Kolkata

Higher Secondary Education; WBCHSE Score: 78.2 %

Jun 2019 – Mar 2021

West Bengal, India

Behala Aryya Vidyamandir, Kolkata

Secondary Education; WBBSE Score: 87.2 %

Jan 2018 – Feb 2019

West Bengal, India

Relevant Coursework

- Data Structures and Algorithms
- Object Oriented Programming
- Database Management System
- Operating System
- Software Engineering
- Digital Electronics
- Signal and Systems
- Circuit Theory

Experience

Software Engineer Trainee | Cisco Systems, Bangalore, India

Oct 2025 – Present

- Contributing to the Security Business Group (SBG) within the Privileged Identity & Access Management (PIAM) team, building **3+ secure backend services** in **Go**, supporting **10K+ users** and handling **50K+ API requests/day**.
- Developed and optimized **4+ microservices**, reducing API latency by **20%**, increasing throughput by **30%**, and improving system reliability to **99.9% uptime**.
- Engineered a **GitHub Actions CI/CD pipeline** across **20+ repositories**, cutting configuration errors by **40%**; containerized and deployed **5+ services** using **Docker, Kubernetes, and AWS**, improving deployment efficiency by **50%**.

Projects

Online Doctor Consultation System | ASP.NET Core, REST APIs, JWT

Feb 2024

- Developed a **secure medical consultation portal** serving **10+ test users**.
- Implemented **JWT-based authentication** supporting **3 distinct user roles**.
- Built an **admin dashboard** managing **50+ doctors**, **200+ appointments**, and **500+ test reports**.
- Reduced **booking time by 60%**, improving overall system efficiency.

Reversible Logic Circuits | CMOS, VHDL, Xilinx

Aug 2024

- Designed **3 reversible logic gates** (Fredkin, Toffoli, Peres) using **CMOS-based VHDL implementation**.
- Achieved **30% reduction in power dissipation** using **reversible computing principles**.
- Applied **3 quantum-safe techniques** to design **secure circuit logic** for post-quantum cryptographic systems.
- Simulated and validated circuit outputs on **Xilinx**, achieving **0% functional error**.

Technical Skills

Languages: C, C++, Java, Python, SQL, JavaScript, HTML/CSS, Go, TypeScript

Frameworks: ReactJS, Node.js, Express.js, ASP.NET, Spring Boot

Databases: MySQL, MongoDB

Technology: Git, GitHub, Postman, Visual Studio Code, Xilinx, JIRA, Confluence

Other Tech: REST APIs, JWT Authentication, AWS, Docker, Kubernetes, Network Security

Programming Profile

LeetCode:

Achievements

GATE EC '25: Secured score of 436 in Electronics & Communication.

IEEE Workshop 2023: Certified in EM and antenna modeling, successfully completing 2 advanced simulation projects.

IEM-UEM Kolkata Marathon 2023: Collaborated as a volunteer in a team of over 50 members.

Mentoring: Tutored 10+ students for ICSE/ISC exams (Math & Science).

Art Award: Secured 1st place in school-level art competition among 100+ participants.
